

# TeamSTEM

A ViSTA Program by Earth Ed

TeamSTEM is more than a professional development opportunity; it is a movement of middle year STEM educators working to revolutionise curriculum in Victorian schools. Through an intensive 16 week program that aims to build the confidence and competence of teachers; TeamSTEM will develop and implement highly effective integrated STEM units into middle years classrooms across the state.

TeamSTEM will utilise a blended approach including one full day face-to-face workshop plus regular WebEx and in school sessions. Up to three teachers per school from across Victoria are invited to apply to be part of this exciting and strictly limited program running in both semester one and two of 2019. Funding is available to assist in the implementation of the program including CRT costs to enable participation.

Applications reviewed on a rolling basis. Apply online at <https://goo.gl/forms/vHzmxIBWkP1TcVzG2>
